SKILLS

- Python
- PyTorch
- TensorFlow
- scikit-learn
- FastAPI
- Docker
- SQL
- Git
- Hugging Face
- LangChain

Lena Fischer

JUNIOR AI ENGINEER

PROFESSIONAL SUMMARY

Motivated AI engineer with hands-on experience in NLP and computer vision. Passionate about building scalable ML pipelines and deploying models to production. Quick learner with strong Python skills and a solid mathematical foundation.

EXPERIENCE

- AI Engineer Intern

Jun 2023 – Dec 2023

DataMinds GmbH

 - Fine-tuned BERT-based models for German sentiment analysis, achieving 91% accuracy.
 - Built a FastAPI microservice to serve NLP models, reducing inference latency by 35%.
 - Automated data preprocessing pipelines with Apache Airflow saving 10+ hrs/week.
- Research Assistant

Sep 2022 – May 2023

TU Berlin – AI Lab

 - Assisted in research on transformer architectures for low-resource languages.
 - Implemented evaluation scripts and maintained experiment tracking with MLflow.

EDUCATION

- B.Sc. Computer Science (AI Track)

2020 – 2024

TU Berlin

PROJECTS

- CV Parser API

FastAPI + LangChain service that extracts structured data from resumes using GPT-4.
- Image Classifier

PyTorch CNN trained on CIFAR-100 with 78% top-1 accuracy, deployed on HuggingFace Spaces.
