Ryo Tanaka

JUNIOR AI / NLP ENGINEER

PROFESSIONAL SUMMARY

NLP-focused AI engineer with experience in multilingual language models and information retrieval systems. Contributed to open-source Hugging Face projects. Comfortable working in both research and production environments.

EXPERIENCE

NLP Engineer Intern

Apr 2023 – Oct 2023

Rakuten Institute of Technology

- Fine-tuned multilingual BERT for product classification across 10 languages (avg F1: 0.89).
- Built semantic search pipeline using Elasticsearch dense vector indexing.
- Contributed 3 PRs to open-source Hugging Face datasets library.

Software Engineer Intern

Jul 2022 – Sep 2022

CyberAgent

- Developed REST APIs for ad-targeting recommendation system.
- Implemented caching layer with Redis reducing API response time by 40%.

EDUCATION

B.Sc. Information Science

2019 – 2023

University of Tokyo

PROJECTS

Multilingual Summarizer

mBART-based abstractive summarization tool supporting Japanese, English, and French.

Semantic Job Matcher

FAISS + Sentence Transformers job recommendation engine with FastAPI backend.
