Pinecone

Carlos Mendoza

JUNIOR AI / ML ENGINEER

PROFESSIONAL SUMMARY

Recent CS graduate specializing in machine learning and generative AI. Experienced in building end-to-end ML systems from data collection to model deployment. Strong background in cloud infrastructure and MLOps best practices.

EXPERIENCE

ML Engineer Intern May 2023 – Nov 2023

Startup.ai

- Developed a RAG-based Q&A system using OpenAI embeddings and Pinecone vector DB.
- Deployed models on AWS SageMaker, cutting deployment time from days to under 2 hours.
- Created A/B testing framework to compare model versions in production.

Data Science Intern Jun 2022 – Aug 2022

RetailCo

- Built demand forecasting models (XGBoost) reducing inventory waste by 18%.
- Developed interactive dashboards with Streamlit for stakeholder reporting.

EDUCATION

B.Sc. Computer Science 2019 – 2023

UC Berkeley

PROJECTS

LLM Chatbot

Multi-turn conversational agent with memory using LangChain and GPT-4 Turbo.

Stock Predictor

LSTM-based time series model for stock price prediction with Streamlit UI.
